### THE AMENDME

The Only Safe Course With Them

There are twenty-fiv tional amendments to b to the people at the comf From the ticket no one c he is voting for or against the voter goes into the ele he has not time to find would require an examina amendments and the ticks what he is upon. So amendments may have me many have no merit at making or the amending o tution should be most care sidered by the people be tion. A provision of the c cannot be altered or amend ily as a bad legislative act. islature may enact a law, repeated by the next legisl so as to my provision of t tutter It takes years to g construmal amendment obmexious it may prove to amendments to the should be submitted to the a special election, so that tion of the people may n verted from consideration of its of the amendments by selerations and party co offices. Every amendme be submitted in such form lot that every voter would he is voting for when he ca tor. If amendments are r pertance that it would b adopt them, they should motted in such form and at na the people can exercise liberare judgment, and to on the fortunes of chance in

ing a grievous error. As to the present amend would be just as well to their fate by the dice box as farce of adopting them by a this election. To make ne an X should be placed in pp sie the reading, "Age presed Constitutional Am No. -, amending Sec. --of Constitution," thus: is important to vote against amendment, for if any ame receives one you for its a and none against it, it bec part of the continuous. To safe way to defect may I the ment you do not want is against them all, or spend days in hunting up any pa smendments you do want. have ten minutes to vote for dates and amendments, and you vote against all amend you are liable to vote

If it is of great importance to the constitution in 25 particunow proposed, we should have stitutional conservior. Then people will know exactly what are doing.
